

# Hanki PP filter 10-pack (small housing)

Keeping your Hanki pool water clear. Built with advanced melt-blown technology, it offers strong filtration performance at an accessible price point. Matches to filter housing HFIL06.

## Key benefits

- Effective filtration – traps fine particles throughout the whole cartridge, not just on the surface
- Uniform performance – consistent filtration across the entire filter structure
- High durability – compact and robust even without an inner support core
- Smooth water flow – low pressure drops keep circulation efficient
- Hygienic design – no fibre release during operation, ensuring clean and safe water
- Chemical resistant – made from 100% pure polypropylene

## Technical details

Material	100% polypropylene
Filtration efficiency	>80% (lab tested)
Construction	Melt-blown polypropylene
Design	Depth filter cartridge, coreless

**HS Code** 84219990
